Sylvanian Families™

Step into the wonderful world of Sylvanian Families and meet all the charming little characters from Sylvania. Because they are all so different, you'll have great fun getting to know them and their special ways. You can collect Sylvanians separately

or in family sets. Their bodies are poseable and they're all dressed in handmade Sylvanian Family clothing. They live in cosy houses which reflect their individual characters and surround themselves with beautifully made Sylvanian furniture.

THE TIMBERTOP FAMILY

Bech Timbertop · Rose Timbertop · Taylor Timbertop · Ivy Timbertop

THE TIMBERTOP FAMILY

Taylor Timbertop loves his children so much, he wants to spend all day and everyday with them. They love him lots and lots too, but not first thing in the morning, because before he has trimmed his whiskers he is a bit spiky to kiss.

Rose Timbertop just like her husband adores children. The Timbertop household is always crowded with lots of children who treat Rose's house as home and therefore it is very noisy and hectic.

Birch Timbertop loves exploring. He knows all the secret paths and hidden caves in the woods. He wants to be an explorer when he leaves school.

Ivy Timbertop is very good at needlework, some say the best in Sylvania. Her dad still proudly wears the first skirt she ever made him.

Burl Timbertop takes after his brother, Birch. Set him on the floor and he'll crawl all round the house, exploring.

Blossom Timbertop is a really happy baby. All day long she giggles and laughs.

THE VANDYKE FAMILY

Brook Vandyke · Becky Vandyke · Ebb Vandyke · Flo Vandyke · Eddy Vandyke · Spring Vandyke

THE VANDYKE FAMILY

Ebb Vandyke lives with the rest of his family on the 'Rise of Sylvania'. They slowly travel up and down the river, having lots of adventures, and meeting lots of interesting people. Ebb is very keen on keeping the river environment clean and tidy. He gets very cross when he sees rubbish on the river bank or even worse floating on the water. He is always putting up notices "Keep Sylvania Clean" and "Use the bin provided."

Flo Vandyke runs the Sylvanian swimming classes as well as navigating the canal boat and looking after her busy family. All her family swim very well, but Flo wants everyone in Sylvania to be able to swim, because as she says "water is dangerous but supervised swimming is lots of fun so come and join us."

Brook Vandyke is always getting in trouble! Not because he's bad or naughty, it's just that he is so terribly inquisitive. Once he got his head stuck in a large storage jar because he wanted to see what was inside. His sister insists he is just nosy, which upsets Brook.

Spring Vandyke is the artist of the family! She is responsible for all the lovely decorations on the Rise of Sylvania. Spring spends hours on deck in the sunbath drawing new designs for everything from the buckets to the cabin doors. Her mother says she gets her artistic bent from her great, great grandfather who has some of his paintings hanging in the Sylvanian museum.

TWINS SET SOLD SEPARATELY

Eddy and Becky the baby Vandykes have their own baby language which they converse in all day long. No one knows just what they talk about (because its baby talk) but what ever it is they can manage to talk about it all day every day. Brook thinks they talk in this strange way because everyone always goes 'coo coo' to them!

THE TREEFELLOW FAMILY

Winky Treefellow · Anabella Treefellow · Aristotle Treefellow · Grumpy Treefellow · Binky Treefellow

THE TREEFELLOW FAMILY

Aristotle Treefellow is headmaster of the Sylvanian school. He's always got his nose in a book.

Anabella Treefellow met Aristotle when she was training to be a teacher. She's always helping children with their homework.

Winky Treefellow takes after his dad. He's the cleverest boy in his school.

Grumpy Treefellow has got a very short temper. Be very careful not to annoy him, won't you?

Binky Treefellow loves to sit quietly and think. Trouble is, when it's too quiet, he falls asleep.

THE PETITE FAMILY

Patrick Petite, spends all his time in the attic gazing through his telescope at the stars at night, dreaming of all the extra-terrestrial civilizations in other worlds. He gets very excited when talking about the universe and his ambition is to discover a new star that he can name after his wife.

Margaret Petite, known to her friends as Meg, thinks that Patrick gets too carried away with his stargazing and much prefers the mystery of astrology to astronomy. In fact, when she's not looking after her children, she writes horoscopes for the local newspaper. Patrick jokingly calls them Horroscope!

Piers Petite, wants to be an astronaut when he grows up and is always designing and building new toy rockets. His father allows him to sit with him in the attic, as long as he is very quiet. Sometimes he's allowed to look through the telescope as his father points out the different stars, but really he's looking for spaceships!

Andromeda Petite, enjoys both her parents' hobbies. She always reads her horoscope her mother has written in the local newspaper, but thinks that when it says she should "be a good little girl and do the household chores", it's just her mother's way of getting her to do the washing up!

Freddie Petite, the baby boy, is too young to be allowed into the attic. The first present that his daddy ever bought him was a mobile of all the planets, that hangs from the ceiling above his cot. He keeps waving his arms at them, just like his daddy, but so far, is too small to reach them!

Halley Petite, the baby girl, loves crawling around the house. She is always following her brother Piers, just in case he tries to launch one of his new toy rockets, but so far, none of them has managed to lift off!

THE FURBANKS FAMILY

Kenneth Furbanks loves acting and directing & telling people what to do with a big booming voice and dramatic gestures. You can see he takes acting awfully seriously and the other day he couldn't help looking rather upset when his wife Emma won the annual Sylvanian Acting Award and he didn't!

Emma Furbanks calls everyone 'darling' or 'lovey'. That's because she's always so busy trying to remember her lines that she forgets everyone's names! Emma is a very fine actress but she's terribly modest about her talent and insists that her 'Darling Kenney' is much better than her (even if he's not!).

Douglas Furbanks, known as Junior, spends most of his time in an imaginary world of his own in a world populated by pirates, white knights and bright green fire breathing dragons. For Douglas, there's nothing better than pretending he's some swashbuckling hero whose mission it is to save fair maidens from nasty, dirty dungeons.

Greta Furbanks is the exact opposite of her brother. Quiet and with both feet planted firmly on the ground, Greta is a perfectionist. Everything (especially her acting) has to be just right. She lives to be alone so she can get on with the serious business of learning her lines and understanding the characters she has to play.

Ray and Fay Furbanks have literally been born into the acting profession & and they love it! In particular, they have great fun playing with all the make-up and face paints. So, if someone isn't watching them very carefully, this naughty couple will soon cover themselves from head to toe in bright colours. Apart from that, they are very good and never cry or make a fuss while their parents are performing on stage.

THE DAPPLEDAWN FAMILY

Herbage Dappledawn loves going for long walks in what he calls 'The Great Outdoors'. His family call him 'Big Foot' because he takes such big strides that the children almost have to run in order to keep up with him!

Theodora Dappledawn has a passion for anything old. Her favourite pastime is visiting stately homes and historic monuments. She says that they "bring history to life". The children have a great time because, whenever the family visit such places, she makes up brilliant stories.

Radish Dappledawn loves running around castles pretending he is a gallant knight rescuing fair maidens and challenging evil Barons to duels. He also often goes orienteering with his friends. Orienteering is a great sport where you have to get from one place to another with the help of a map and a compass.

Tilly Dappledawn is a very quiet little girl who happily spends hours and hours birdwatching. She knows all the birds names, where they come from and what they eat.

Dillon Dappledawn never stops smiling! He's happiest sitting on his father's broad shoulders. From up there he can watch the pretty countryside go by - and that makes him smile even more.

Cotton Dappledawn is always crying or whimpering about something, so her poor mother is praying she will grow out of this awkward phase!

THE BILLABONG FAMILY

Rolf Billabong Matilda Billabong Kyle Billabong Jason Billabong

THE BILLABONG FAMILY

Rolf Billabong is very good with the children. Everyone loves his painting lessons (where the paint goes everywhere but on the paper) and when he teaches music, the happy din the children make with their drums, rattles and whistles can be heard miles away!

Matilda Billabong and her husband Rolf run the Tree House Nursery where all the Sylvanian babies and toddlers come to stay, play and start to learn a few basics in preparation for school - such as counting and the alphabet. As well as being a really fun grown up to play with, Matilda is an amazing cook. She makes biscuits that don't ruin your appetite and sweets that won't harm your teeth.

Kyle Billabong the Billabong's little daughter is perhaps the noisiest of all the children (and that's saying something!) She loves to sing at the top of her voice and wants to be a popstar when she grows up.

Jason Billabong is quite the opposite to his loud sister and is much quieter. He always has his head in a book - usually one about dinosaurs - and when he gets older he wants to become a famous fossil hunter and historian.

THE PUDDLEFORD FAMILY

Nelson Puddleford is an expert plumber. Whenever anyone has a leaking tap, he's immediately on hand to mend it.

Beth Puddleford makes the most refreshing iced drinks and all the children come from miles around to try them!

Tom Puddleford takes after his dad. He's fascinated by tubes and pipes, and wants to be a plumber when he grows up.

Maisy Puddleford likes rainy days, because she just loves splashing about in puddles especially muddy puddles.

Sammy Puddleford on the other hand, hates the rain and the puddles. In fact she will not go outside until all the puddles have dried up.

THE BAMBOO FAMILY

Bertram Bamboo writes huge, important books about the history of ancient Sylvania, locked away in his study for hours. He is also famous for being very accident prone!

Alexandra Bamboo does lots of good works such as raising money to open a home for retired horses. She's a very friendly lady and all the Sylvanian folk like her a lot.

Kane Bamboo is the oldest son. He plans to follow his father and be a writer one day. Unfortunately he's already just like his father in one way, he's also accident prone!

Clarice Bamboo absolutely adores horses. She spends all her time at the stables, grooming and working with them. One day she wants to be a famous show jumper.

Remi Bamboo loves to paint. He can paint on anything and usually does, only to find he has to promise never to do it again!

Lena Bamboo is a giggler. She giggles at the slightest thing and, with her family tripping up and knocking things over, she finds there's plenty to giggle about in her house.

THE UNDERWOOD FAMILY

Byron Underwood Bess Underwood Benjamin Underwood Beatrice Underwood

THE UNDERWOOD FAMILY

Benjamin Underwood and his family are nomads wandering Sylvania in their caravan. Benjamin is an expert at mending broken furniture and putting up shelves. He is currently writing a book called "Antiques the Underwood Way," but he never seems to get round to finishing it.

Beatrice Underwood is a very capable badger indeed. Her father had always inspired her with his motoring stories and so from an early age, Beatrice became interested in the mechanics of any vehicle with wheels.

Byron Underwood takes after his grandfather who was the Sylvanian society photographer of his day. Byron has recently been learning to develop his own film so if you can't find him it's because he is in his dark room developing his latest roll of film.

Bess Underwood is known for her emling features, and her beauty is the talk of Sylvania. Everyone says the reason she's so attractive is because she has a very friendly personality which shines through her beautifully slanted eyes.

Ella Underwood's personality is still developing, but so far she is showing signs of being a great thinker and just loves to sit on the caravan and watch the world go by.

Hugh Underwood has already made his mark on Sylvania and is showing a great interest in the construction of buildings. Bess thinks they may have a possible architect in the making.

THE BABBIEBROOK FAMILY

Bubbs Babbiebrook Crystal Babbiebrook Rocky Babbiebrook Breezy Babbiebrook

THE BABBIEBROOK FAMILY

Rocky Babbiebrook runs the village store. He stocks everything from sweets to brooms, whatever you want, Rocky will have it in stock.

Crystal Babbiebrook is the best cook in Sylvania and has written the definitive, 'Cooking with Carrots' recipe book.

Bubbs Babbiebrook has got the most amazing sense of hearing. He is even said to be able to hear the grass growing.

Breezy Babbiebrook always likes to have her own way, which makes her seem bossy and rude. Her dad, Rocky calls her his little Cinderella and of course spoils her, something wicked!

Sandy Babbiebrook always wants to get out of her cradle to see what his twin, Coral, is up to.

Coral Babbiebrook is really noisy when she's hungry. She cries and cries and rattles her cradle when she feels it's time to eat.

THE MARMALADE FAMILY

Otlee Marmalade Margot Marmalade Maurice Marmalade Oscar Marmalade

THE MARMALADE FAMILY

Maurice Marmalade is so incredibly busy, neat and tidy, that he drives everyone mad. "A place for everything and everything in its place," is his motto.

Margot Marmalade believes in keeping up appearances. She even has a special voice for answering the telephone!

Otlee Marmalade is a tomboy and wants to be a firefighter when she grows up. She's constantly practising her fire fighting skills by climbing trees and running amok with the garden hose.

Oscar Marmalade is very spunky - in fact he loves any game where he can get dirty! His father is always scolding him about his appearance.

Kit & Karenza Marmalade are continuously fighting, making a noise and generally being the naughtiest babies in Sylvania.

Clementine Marmalade is a wonderful Granny. She makes the best blackberry and apple pies you've ever tasted.

Quincy Marmalade never seems to sit down - especially when his granddaughter Otlee is around! Otlee is always dragging him off to play firefighters and getting him all muddy and wet!

Monty McBurrows Mo McBurrows

THE CAT-WOOD BABIES

Chess Cat-Wood likes to scribble, but he calls it drawing and colouring. He likes to work alongside his sister Tabitha. She likes the company but she is not so happy when he wants to help with her picture.

Feebi Cat-Wood collects things, anything in fact, milk bottle tops, coloured pebbles, pens, odd looking twigs, anything that takes her eye. If you loose something, it is always a good idea to check with Feebi as she may have picked it up and added it to her collection.

THE HONEY-BEAR BABIES

Jeremy and Lucy Honey-Bear the 'Terrible Twins' as they are known, are always making a noise and being naughty, except when their mother is reading to them. They just love to hear stories, but never seem to hear the end as they always fall asleep half way through.

THE McBURROWS BABIES

Monty McBurrows wriggles and wriggles about in his cot. That's why his blanket is always on the floor.

Mo McBurrows burrows so far under her blankets, when she's asleep, you just can't see her there.

THE WADDLINGTON FAMILY

Mayor Bill Waddlington Mayress Wanda Waddlington
Quiller Waddlington Sebastian Waddlington Jermna Waddlington

THE WADDLINGTON FAMILY

Mayor Bill Waddlington is a chap who likes to get things done. He simply hates what he calls 'time wasting'. That's why he's always in a rush. 'Life is for doing not watching,' he often says. It seems that life is also for shining the mayor's golden chain of office that hangs around his neck - of which he's very proud. It is rumoured that he even goes to bed wearing it!

Mayress Wanda Waddlington runs the Sylvanian delivery service called 'Flyte Path' whose motto is 'One ring and we're on the wing'. She's an excellent businesswoman, and although she doesn't rush about as much as her husband, she seems to get much more done!

Quiller Waddlington is such a serious little boy! Clearly he must think very hard about everything because he frowns a lot. Indeed,

Quiller can already write his name. His mother secretly thinks that her little son might grow up to be a writer like William Duckface, the famous Sylvanian playwright who wrote those unforgettable lines 'To quack or not to quack'.

Jermna Waddlington is a dreamer! Jermna lives in a little world of her own and when she's not day-dreaming you can be sure that she'll be curled up fast asleep in some snug spot. Not surprisingly, Jermna loves fairy stories read to her in bed by her mammy... Especially the one about the beautiful princess who sleeps for a hundred years!

Sebastian Waddlington is already just like his father. He's always in a hurry (even on his pony, which can be a bit worrying!) And, when he's not organising his toys in neat rows, he'll be organising his brother and sister - telling them what to do and when to do it.

THE MULBERRY FAMILY

Ike Mulberry Elma Mulberry Mae Mulberry Candy Mulberry

THE MULBERRY FAMILY

Elma Mulberry is a very jovial chap, who just loves telling funny stories and jokes. He is happiest when at a 'Boot Sale' because he can sell anything to anybody.

Mae Mulberry's motto 'waste not want not'. And she's true to her word because she hates to throw anything away 'Just in case it might be useful'. That is why all the outbuilds in their house are groaning with strange 'useful' objects she has collected over the years. Unbeknownst to Mae, Elma goes through the cupboards to find things to sell at his 'Boot Sales'.

Candy Mulberry is a gentle, softly spoken little girl who loves writing. Her greatest success to date is a poem she had published in the local paper about 'Bramble', the horse who pulls the Sylvanian caravan.

Ike Mulberry has 'wanderlust'. The problem is that he has absolutely no sense of direction! So whenever he wanders off he inevitably gets lost - which worries his poor mother and father terribly. But even though he doesn't know where he is going, he always manages to end up at the park, playing with his other Sylvanian friends in the playground.

Pumpkin Mulberry is a dreamy little girl who loves stories, especially the classic old Sylvanian tales which she loves to hear over and over again. She knows all the stories 'off by heart' and so if Mae misses a bit out, Pumpkin will make sure the whole story is read over again.

Cookie Mulberry Even at his young age Cookie has ideas of what he wants to be when he grows up. He has decided he wants to be Mayor of Sylvania and spends hours dreaming in his favourite spot, under the cherry tree!

THE BEAGLE FAMILY

Harold Beagle Percy Beagle Prunella Beagle Antonia Beagle

THE BEAGLE FAMILY

Percy Beagle is Sylvania's Master Baker. At 4 o'clock every morning (except Sundays) you'll find him at the Beagle & Beagle Bakery making and baking his lovely crusty loaves ready to be delivered - still deliciously soft and warm - to his customers in time for their breakfasts.

Prunella Beagle helps her husband in the bakery as often as she can. Her speciality is making cakes for

special occasions. Big, small, tiny, tall, she'll make cakes of any size, shape, colour or filling. However, of all her wonderful creations, she says that she is most proud of the five tier cake that she made specially for Bobby & Louise Brighteyes wedding. It was an impressive four feet high!

Harold Beagle does all the bakery's deliveries on a heavy old hock bicycle with a big wicker basket on the front where he puts the loaves. Although he doesn't know what he wants to be when he grows up, he

certainly isn't going to be a baker. Getting up at 6 o'clock to do the deliveries is bad enough, let alone 4 o'clock, which is the time that his father starts work!

Antonia Beagle loves baking bread. She loves everything about it, especially the deliciously warm smell of the freshly baked loaves. Antonia really enjoys helping her Daddy and Mummy at the bakery whenever she can after finishing her school homework. Her father is very proud of her and thinks that her pastel coloured icing is even better than his own!

THE NORWOOD FAMILY

Endeavour Norwood Wensleydale-Hector Norwood Brie Norwood Katy Norwood

THE NORWOOD FAMILY

Wensleydale-Hector Norwood known as 'WH' to his friends, Mr Norwood is the jolly chap who owns the newspaper, book and stationery shop called WH Norwood & Sons. His favourite pastime is gossiping with all his regular customers!

Brie Norwood also works at the shop. She can always be found sitting at her desk in the back office keeping the business records. In her spare time she is studying very hard to become a fully-fledged Chartered Accountant and - strange as it may seem - can't wait to sit the difficult exams!

Endeavour Norwood is the paperboy for his father and mother's shop and is blessed with boundless energy and enthusiasm. Every day before school he gets up hours before the birds have uttered their first sleepy 'twit' to name and address all the papers for delivery.

Katy Norwood is unlike her early rising brother, morning is not the best time of day for Katy. In fact, the week is not particularly popular with her, because she doesn't like getting out of bed and going to school. Of course, on Saturday afternoon she works in the shop!

Norman Norwood is a little boy who loves paper. He loves drawing on paper, painting on paper and most of all, he loves wet, squishy paper that he can mould into different shapes. It's called 'Paper Mache' but Norman's efforts look more like 'Paper Mashed'. All in all, it's very fortunate that his parents have so much spare paper in their shop for messy Norman to play with.

Millie Norwood is very good at crying. She's also excellent at screaming and stomping her feet until she goes quite red in the face. What Millie is not very good at is sleeping. That's why all the other children call her 'Thunders', because that is what their parents tell them to do every time they go near her... in case they wake Millie up from one of her rare snoozes.

William Beagle Fiona Beagle

AVAILABLE AS TWIN SET ONLY

Twins, **William & Fiona Beagle** love nothing better than to spend all day playing in the Sylvanian sandpit. William used to be very fond of putting his foot in his mouth, but the taste of sand soon cured him of that! Fiona is a lovely little girl who has just grown her first teeth. She loves nothing better than chewing on one of her daddy's crusty rolls!

THE MOSS FAMILY

Cameron Moss is a journalist on the 'Forest Telegraph', Sylvania's biggest (and only) newspaper. The Sylvanians often say whenever there's a news story to be found, you will always see Cameron busy with his pen and pad, making notes at the scene. One could say he was just plain nosy, but the Sylvanians see far too little for that and know he is only doing his job.

Rowena Moss is Editor of the 'Forest Telegraph' which means she is Cameron's boss! However, she doesn't boss him around just checks his work meticulously - particularly his spelling! (which can be appalling.!!) They have to work well together because looking after the family and running a business is extremely hard work! Rowena is always embarrassing Cameron by telling everyone the story of how they met - through the lonely hearts column in the newspaper!

Buck Moss is known as 'Scoop' at school, as Buck wants to be a journalist when he is older. With the help of his sister, Juniper, they have started a school magazine called 'The Pupil'. It's full of tips on how to do your homework quickly and important news stories like who won the school sports championships!

Juniper Moss is a very artistic lady. Her ambition is to become a serious artist drawing pictures for children's books. She has already started a collection of her own and now only needs Buck to sit down for five minutes to write the stories!

Bonnie Moss, although very young can already recite her alphabet... backwards!! She can always be found out in the meadow eating the best grass so that she can grow tall and graceful.

Charlie Moss is a little bossy - he is always organising his family and says things like "Daddy can bath me tonight and Mummy can read me stories and get me some warm milk". He always says it with such appealing eyes that he has his whole family running around in circles after him!

The kind Sylvanians took them straight home and after bathing and feeding them, tucked them up in bed. The strange thing is that no one knows where they came from, it's all so mysterious. The more imaginative Sylvanians secretly think the twins may have been left by the good fairies.

ROXY RENARD'S HOME INTERIOR SET

If anyone wants their house to look really stylish then they call Roxy Renard - Sylvania's top interior designer. BADEN & MIKAELA'S CAMPING SET

It's not often that brothers and sisters like doing the same thing, but Baden Renard (a Boy Scout) and Mikaela Renard (a Girl Guide) both love camping. There they can practice all the outdoor skills they've learned - like pitching their tent, tying complicated knots and cooking scrummy food on an open fire.

CARRIE & DANNY'S CAROUSEL SET

These two bouncing babies adore spinning round and round in the Tea Cup Carousel that their clever daddy, Eric Renard made them for Christmas.

NANNY TIMBERTOP & BABY TIMOTHY

Timothy can't talk yet - he just grunts and points at anything he wants. Nanny is patiently trying to teach him that pointing is rude. "Nanny Knows Best," she always says as she pushes him along in his big pram. But Timothy just grunts again and points at her with that naughty grin on his face!

DOCTOR MURDOCH

Dr. Murdoch is the Sylvanian Family doctor. When he was at school all the children used to call him 'Doc' for short and it was no surprise that when he grew up he actually became a doctor! He is very kind to everyone and always shows extra special patience to his patients! In fact, one could say, he has the ideal bedside manner!

GRANDMA'S COFFEE BREAK

Grandma Paul Babbiebrook comes with a whole host of cozy accessories: a rocking chair, table, mug, a plate of cookies and her favourite cookbook.

CAPTAIN'S CREW

Captain Horatio's crew consists of First Mate 'Beaky', Able Seaman Twitch and Cabin Boy Murky Waters. They help the Captain keep everything shipshape with their mops and buckets. The captain calls them his 'Motley Crew' which they like very much, because it makes them sound like pirates on the seven seas.

CAPTAIN SEADOG AND ACCESSORIES

With an old blue peaked cap, threadbare sailor's uniform and a big smile Captain Horatio Seadog is a very popular character. Give him the chance and he will sit for hours telling tales of the seven seas! All his stories are of pirates and great adventures, with him cast as the hero. His 'Motley Crew' as he calls them, love to hear them over and over again.

HERE COMES THE BRIDE!

WOODLAND WEDDING SET

Humphrey and Prunella's wedding

"It's a marriage made in heaven," predicted Humphrey's star-gazing uncle, Ferdinand. And he was right. Humphrey and Prunella fell madly in love the very moment they laid eyes on each other. From that fateful day the two of them were inseparable and it wasn't long before Humphrey got down on one knee and asked the magic question: "Will you marry me?" To which the blushing Prunella said "Yes!" (at least six times, because she was so very excited and happy!)

The wedding preparations were soon underway. The happy couple asked Uncle Ferdinand's children **Zara and Zack Solitaire** if they would be their Bridesmaid and Pageboy.

In all the excitement of preparing for the wedding, time seemed to race by and before you could say "I love you more than anything else in the world," the big day had arrived. Indeed, as you can see, there is everything here that you would expect for the perfect wedding - the fairy tale dress, the bouquet, the decorative archway (under which Humphrey and Prunella kiss after they say their vows) plus loads of presents, a beautiful cake, drinks, wedding photographs and even a piano that plays 'here comes the bride'!

NURSERY TREE HOUSE

This nursery is where all the Sylvanian babies and toddlers come to play. Each section of the tree house pulls out so you can play inside. There's a friendly smiling tree face on the ground floor wall, which wakes up when all the babies arrive and closes its eyes and goes back to sleep when the babies go home. There are so many things to see and do - like the dock house with its working pulley and bucket. What's more, your Nursery Tree House also comes with its own furniture, ladders and outdoor play accessories.

Jack Meadows is a farmer and the cousin of Samuel Stamp, the postman. Sam had written to Jack some time ago and had suggested that he and Maisie move into Sylvania. Jack was very keen to move and wanted everything just right. With the help of his new Sylvanian friends, he has created Meadowcroft Cottage which is surrounded by acres of good farming land. Jack spends a lot of his time sowing, tending and harvesting his golden fields of wheat. However, he is most proud of his charming cottage garden. It is a magical place with lots of nooks and crannies to explore, twisting paths bordered by big, brightly coloured flowers and row of trees laden with luscious fruit.

Maisie Meadows is a very sweet lady who every morning can be found in her kitchen baking her delicious bread. It tastes so good because she uses the flour made from the wheat that her husband Jack has harvested. The smell of baking bread wafts throughout Sylvania and makes everyone hungry for their breakfast! Maisie has also been commissioned by Basil, the chef at the Harvester Restaurant, to make all his bread rolls which she sends over fresh to the Restaurant every morning. Maisie's other love is her herb and vegetable patch where she grows all the food they need at home. As she says to her husband, "It's all very well you growing those big fancy blooms, but we can't eat flowers can we?"

Harvey Meadows is a constant robber - especially when his mother is cooking. He will always be at her side just to see if there are any extra crumbs going spare. If there isn't any food available he will just nibble at anything to hand, old socks, cardboard boxes, stuffing out of toys. His mother goes mad with him but he just looks at her with his croaky grin and once again, he gets away with murder!

Jess Meadows takes after her mother. She is very cute and everyone is very fond of her. She is much quieter than her brother and likes nothing better than to curl up in the clean laundry. She loves the smell of clean clothes and can often be found fast asleep in her father's best clean shirts!
